

The New York State Office of Fire Prevention and Control has developed:

The 4F Initiative, Family and Friends of Firefighters

OFPC has developed The 4F Initiative, Family and Friends of Firefighters. This is designed for firefighters' families and friends to spread help the word on issues that deeply concern the firefighters of New York State. We have developed a few ideas to send out initially. We are also asking the firefighters of New York State to send in their ideas, concepts and artwork regarding any issues they have and want to educate the public about. The posters provided are designed to be printed in either color or black and white and still maintain a clean image. Being targeted at the general public, they are intended to be hung in public areas at work, social meeting rooms, schools, break rooms and employee bulletin boards. This is where your non-firefighting family members and friends can help you spread the word to the public. Family and friends may download and print the 8 ½ X 11 posters and hang them where they may do the most good in reaching citizens outside the firefighting community. Please do not post these in any area, business, public room, or bulletin board without seeking permission of the appropriate people.

If you have an idea, concept, or "pet peeve" that you would like the public to be aware off, send your ideas to William.Lamb@dos.state.ny.us. Credit will be attributed to your contribution.

Download 4F Initiative flyers here:

<http://www.dos.state.ny.us/fire/4fflyers.htm>

These posters are intended to be posted on a bulletin board once every 4 to 6 weeks. It is suggested that you not print and post all of these posters at the same time. Spread them out.

Check back often as we will endeavor to provide a new poster/topic every 4 to 5 weeks.

As always, your comments, questions, and ideas may be sent to William.lamb@dos.state.ny.us.
